MEDIUM DENSITY FIBERBOARD(MDF)

Brief Instruction:

MDF is short for Medium Density Fibreboard. It is an engineered wood product formed by breaking down hardwood or softwood residuals into wood fibres, often in a defibrator, combining it with wax and a resin binder, and forming panels by applying high temperature and pressure. MDF is much stronger and denser than plywood. Because of durable and stable quality, it is widely used in Door making and furniture making. And also MDF with Melamine Faced or Veneered are very popular decorative materials in home furniture industry.

Specifications

Species	Face/Back	Size	Thickness
Raw MDF	None	1220*2440MM	3-30MM
Melamine Faced	White Melamine Paper		
	Colorful Melamine Paper		
	Wood Grain Melamine Paper		
Veneered Faced & Pre-Finished	Ash / Beech/ Cherry / Maple / Oak/ Teak / Sapele / Walnut		

PARTICEL BOARD

Brief Instruction:

Particle Board is also called Chipboard. Particle board is an engineered wood product manufactured from wood particles, such as wood chips, sawmill shavings, or even saw dust, and a synthetic resin or other suitable binder, which is pressed and extruded. Particleboard is a composite material. Particleboard is cheaper, denser and more uniform than conventional wood and plywood and is substituted for them when appearance and strength are less important than cost. However, particleboard can be made more attractive by painting or the use of wood veneers that are glued onto surfaces that will be visible.

Specifications

Species	Face/Back	Size	Thickness
Raw Chipboard	None	1220*2440MM	3-30MM
Melamine Faced	White Melamine Paper		
	Colorful Melamine Paper		
	Wood Grain Melamine Paper		
Veneered Faced & Pre-Finished	Ash / Beech/ Cherry / Maple / Oak/ Teak / Sapele / Walnut		

PARTICEL BOARD

Brief Instruction:

Blockboard is made up of a core of wood strips. These strips may be up to about 25mm wide. The strips are placed edge to edge and sandwiched between veneers of hardwood. Block Board usually used for Decoration Base Panel and Low Grade Cabinet and Home Furniture making.

Face/Back	Core Materials	Size	Thickness
Okoume / Bintangor / Oak	Poplar / Chinese Fir / Falcata	1220*2440MM	15MM&18MM
